- (1) For a tabulation of imports, see Annex 1. The tabulation is exclusive of coal imports from Poland and grain imports from the U.S.S.R. See ☐ The merchant ship Pgaldanos referred to in the tabulation is not known; she may be the Frank Delmas which called at Hamburg in early November but did not take on pyrites. The Castillo Tordesillas was due in Hamburg on 6 November and arrived with a cargo of pyrites from Spain on 10 November.
- (2) Only imports shipped by inland vessels were included in the list.
- (3) For tabulation of exports, see Annex 2. The list is exclusive of shipments of fuel oil to Poland. See ☐ The shipments to Hamburg of 10,000 tons of cement from Karstдорf, 10,000 tons of potash, 15,000 tons of ammonium sulfate, 10,000 tons of onions and of large quantities of potash and kainite to Belgium, which had been planned by the DSU, were not listed as they were not confirmed.
